WORK EXPERIENCE

Freelance Full Stack Developer   Lagos, Nigeria

Aug 2020 - Present

- Developed a blog which consists of CRUD functionalities. Utilized React JS for the frontend, Express (NodeJS) to build the REST API for the functionalities and MySQL for the database.
- Developed a web application that creates dynamic QR Codes for a hotel's restaurant menus.
  - Utilized NodeJS (Express) to generate the QR codes for the menus, MongoDB for the database and ReactJS for the frontend.
  - **Resulted to a contactless ordering solution to ensure social distancing at the hotel's restaurant.**

Software Developer at eTranzact   Lagos, Nigeria

Nov 2019 – Aug 2020

- Led the development of the USSD service (*829#) for Nigeria's First Inland Revenue Service (FIRS).
- Single-handedly developed the service that integrates with RemitONE (UK based) to manage, validate and route incoming Nigerian transactions to eTranzact's payment switch.
  - Developed a cron job to fetch, validate beneficiaries and send transactions periodically.
  - **Resulted to a seamless inter border money transfer from the UK to Nigerian beneficiaries.**
- Maintained and added new features to an existing microservice application that integrates with Payment Terminal Service Providers (PTSPs) via POS devices.
  - **Resulted to a reliable solution for money transfer, bills and VTU payment with POS devices via eTranzact agents.**
- Developed the Admin service of eTranzact's Payment microservice application.

Software Engineer at Neptune Software Group   Lagos, Nigeria
May 2017 - Nov 2019

- Developed new features for existing applications.
- Worked with team members to develop the frontend and the backend of the mobile banking application; AmjuMobile for AMJU Microfinance bank. Utilized Ionic and Spring for the Rest API.
- Developed the frontend layer for all modules Neptune's core banking application; OrbitLite. Utilized Spring MVC.

Web Developer at Whitecroft Solutions   Port Harcourt, Nigeria
Jan 2017 – May 2017

- Developed websites using WordPress, HTML, and CSS.
